Battle of Music April 20th

Everybody is looking forward to the Battle of music to be held in the Community Hall on Tuesday April 12th, between Len Davis and his Royal Arcadians and Glen Lock and his Knight's of Rhythm. This promises to be a real dance.

HOPKINS—SHARP

The marriage of Miss Annie Sharp of Champion to Eli Hopkins was solemnized quietly in the parsonage of the Baptist church, Nanton, on March 10, at three o'clock in the afternoon, Rev. Dawson officiating. They were attended by Mr. Miles Pharis. The newly married couple will reside on Mr. Hopkins' farm, southwest of Champion. Many friends in the community will extend best wishes for a happy and prosperous future.

Obituary

Mrs. Blanche Levlina Duncan, aged 42 years, of Drumheller, Alberta, died Sunday at her residence there, Born in Drumheller, Ont., deceased had resided in Drumheller for the past 10 years. She was an active member of the Protestant Bible Institute there. Mrs. Duncan is survived by her husband, Andrew; one son, Harold, her mother, Mrs. F. Tindal, of Calgary; a brother, H. E. Tindal, of Champion, Alta.; two sisters, Mrs. H. Anderson, Carstairs, and Miss Dorothy Tindal, of Calgary.

Funeral services were held from Armstrong's funeral home Tuesday afternoon at 2.30 o'clock. Rev. Dr. A. S. Irvine conducted the service. Interment took place in Burnside cemetery.

Mrs. Ulfsten Dies Suddenly

Mrs. Rena Ulfsten, a resident of Champion, Alberta, for the past 27 years, died Monday in a local hospital at the age of 50 years. Deceased is survived by her husband, E. P. Ulfsten; four daughters, Mrs. W. Bozarth, Champion; Jennie, Calgary, and Alice and Wolburg, of Champion; one son, Paul, Champion; two brothers, Louis Mark, Kincaid, Alberta, and John of Peace River.

Services were held from the Leyden and Bruce funeral establishment Wednesday afternoon at 2 o'clock. Rev. J. O. Jovagay conducted the service. Interment was made in Burnside cemetery.

There was a fair attendance at the lecture delivered by Captain Dan Campbell on Saturday evening. The lecturer proved to be exceptionally gifted and made a very favourable impression on the audience. Musical numbers rendered by Miss James and Miss Walton of Calgary accompanied by Miss Rheta Campbell were well received.

Card of Thanks

Mr. S. O. Millin wishes to thank the many friends who came to his assistance during his recent sad bereavement.

We promised you a treat. Now it is here. The town is graced at last by three mad comedians. The Four Marx Bros. in Monkey Business Wed. April 13th at your theatre.

Urgent Need of Seed and Feed Relief

A ratemakers meeting of the Municipal District of Harmony No. 128, was held in the community hall at Champion March 29, for the purpose of discussing the urgent need of seed and feed relief. The object of the meeting was discussed by F. W. Fleming who was appointed chairman with Fred Smith as secretary.

The chairman opened the meeting and spoke on assistance in the way of seed, feed and free freight, which had been granted to districts in a similar condition. The chairman also urged unity in applications. After a few minor remarks the meeting was open for discussion.

H. E. Smith was the first speaker. He spoke on the need of relief in the form of seed and fodder in order that a good many of the ratemakers would be able to seed their crop. He also spoke on the interview he had with the C. P. R. agent, asking him to recommend free freight to his company. Mr. Brown was present as usual with an illuminated address, but did not speak with approval.

Several ratemakers spoke of the need for assistance in some shape or form. Numerous suggestions were made. Questions were debated for fully thirty minutes, the chief speakers being G. Marks, F. Bachler, F. Puzey, J. D. Goodright, Billy Smith, Fred Smith and others.

A motion was made by H. E. Smith that all ratemakers in need of seed or fodder in the form of free freight or otherwise, make application for same. He suggested two applications in form, one for free freight and one for seed or fodder be used. These to act as guidance to the municipal officials. Motion seconded by J. D. Goodright. Motion carried. F. Bachler suggested an amendment to the above motion that all requests be made on one form. Seconded by G. Marks. Carried.

About this time our municipal secretary, Mr. Alexander arrived with a parcel of literature under the name of "How I Play Golf". It would make an ordinary government mule and everybody was of the opinion that he had the key to the free freight situation and general relief.

An invitation was extended to Mr. Alexander to give any information he had pertaining to free freight and other assistance. He read to the audience literature in connection with free freight and also spoke of being instrumental in getting the Inspector of Agriculture to recommend to his department the need of free freight in this district.

Our secretary also read a motion made by councillor Nowlin at the last municipal meeting that in his belief some assistance would have to be given. A committee was appointed in the name of councillor Griffin, A. Miller (vice), and U. S. Alexander to look after the matter. Mr. Alexander did not mention what action this committee had taken or what results they had accomplished. A request was filed by the ratemakers for seed and fodder. The meeting was well attended and had good support. Meeting adjourned. (Continued)

Women's Institute

The next regular meeting of the Women's Institute will be held at the home of Mrs. U. S. Alexander on Tuesday afternoon, April 12, when gardening problems will be discussed. Mrs. D. H. Galsburgh, Provincial Councillor of Agriculture will be the principal speaker. The report of the District Conference recently held in Lethbridge will be read by Mrs. F. C. Atcock.

Golf fans will be interested to know that the local theatre, starting Wed. April 13th will show a series of pictures of Bobby Jones in "How I Play Golf" the first entitled "The Putter."

On Friday April 15th, there will be a battle of music between Mystery Boys of Champion and Sandquist Orchestra of Stacey, the proceeds to go to softball clubs. Come out and give your local boys a boost.

NOTES AND COMMENT.

God's Judgment Being Poured Out

The turbulence, the depression and the calamities of the times are the beginnings of what are called the judgments of God. They will be the payment to the sinner and to the letter, of the wages of sin, chiefly the sins of the ruling classes in government and finance. These judgments will become more severe and terrible, and when men think they are at their worst they will find that they are but "the beginnings of sorrow."

Why is it so? There are three outstanding causes. The judgments are upon us because of the breaking of moral and spiritual laws, which put men out of harmony with the truth of the universe. The judgments have come to act as battering rams against the wrongs and errors of the established order, and to serve as the birth pangs of a New Day and a New Order, the "New Earth," spoken of by the prophetic Revelation, which the ruling powers will not let come except it come by extreme suffering. These are the preparers of the way for the actual coming of Jesus Christ, who is shortly to walk this earth again and usher in the great day of his peace and justice!

New truth has always had a hard time getting a foothold. Against it persecutions have raged; fires have blotted out noble lives; prisons have consumed great souls, and society has ostracized and driven out its liberators. It would do so today. But this time Christ himself will be the Liberator, and he is now beyond the power of Gethsemane and the cross. "His truth is marching on." It is about to triumph in the great and glorious finale of human history, and the next curtain will rise on a day of glory.

A Japanese minister, Rev. M. Kitazawa, now doing postgraduate work at Pine Hill Divinity Hall, spent a recent week end in Grand Pre. He preached to large congregations in the Horton United Church. In the evening a young people's rally was held. Mr. Kitazawa, dressed in Japanese robes, spoke on "Life in Japan," and despite the inclement weather the church was filled. It was an interesting story that he told, says the Wolfville Acadian: Japan is a very old country, having been founded 2,500 years ago. In all that time it has had only one ruling dynasty, the present emperor being the one hundred and twenty-fourth in the unbroken succession of rulers. One has to know these facts to understand Japan. Solidarity is the national characteristic. In trade, in industry, in politics, etc., the nation moves as a unit. This is the keynote of Japanese life. There are 27 shipyards in Japan and as a shipbuilding country she holds third place. The main industries are those of cotton and silk. Five years ago there were nearly 20,000 factories in Japan. In these factories modern methods are used. The educational system of the country is good. On account of the very large population, 44,000,000, is a country smaller in size than Ontario, education is not within the reach of very many, however. Only 10.3 per cent. of the boys attend school. The standards set by the universities are high and matriculation difficult. Last year Japan published 18,000 books and sent over \$2,000,000 to other countries for books. There are in the country 1,137 daily newspapers, four of which put out a million copies each per morning. In closing Mr. Kitazawa pleaded for better understanding between nation and nation. We must come to know each other better if world peace is to be eventually realized.

**Champion Shorthorns
Win at Calgary**

The McDougall Bros. were again successful in capturing prizes at the Calgary Spring Show and Sale.

Mr. A. S. McDougall's entry this year in the class of bulls born after January 1, 1931 was one of the finest animals that ever left this district and it is gratifying that he received outstanding recognition from the judges. When it is considered that only four firsts were granted and Mr. McDougall was successful in receiving one, it is all the more remarkable. The champion shorthorn bull was Donald Colrossie imported in dam a 2 year old exhibited by O. Moorehouse Cleveland. He sold for \$850.00, the highest price of the sale. The reserve champion was Colrossie Missile Bay imported a 3 year old shown by Charles Yule Carstairs. He was withdrawn at \$220.00. First in class born after January 1, 1931 was Lismore Epiphane bred and exhibited by A. S. McDougall Champion. He sold for \$225.00. C. D. McDougall won 5th place in the class of bulls born after January 1, 1931.

A. S. McDougall says, taking the entries of the shorthorns all over they were the best yet seen at the Calgary sale, with very few culls and all well fitted.

Experiments Now In Progress May Result In Production Of Plants Of Greater Food Value

Wheat, cabbages and turnips may soon be found only in backyard countries and museums, or grown as plant curiosities, if some of the entirely new plants now being produced by scientists are found to have greater food value.

For hundreds of thousands of years man has been content to accept the plants that nature gave him. Now and then nature in a sportive mood would cross plants and produce something new and better adapted for or giving a greater yield than either of the parent plants, but now scientists have found how by crossing to produce not merely new varieties but plants beginning a new genus.

Dr. W. P. Thompson, of the Department of Biology, University of Saskatchewan, recently returned from the University of Minnesota where he gave a series of lectures on cytology and genetics to graduate students there, and has enumerated some of the new discoveries in plant breeding.

The wild wheat that grew around the shores of the Mediterranean hundreds of thousands of years ago and that still grows in the same places under the microscope has 36 chromosomes. In the wheat family everything runs in multiples of 14.

The wild wheat that grew around the shores of the Mediterranean hundreds of thousands of years ago and that still grows in the same places under the microscope has 36 chromosomes. In the wheat family everything runs in multiples of 14.

Again in an inventive mood nature probably crossed this durum wheat with a 14 chromosome plant, possibly the wild aeolids and made a 42 chromosome wheat, the parent of all our bread wheats. Now this scientist at Vienna has crossed bread wheat with agropy and got a plant with 56 chromosomes. What if it will be a better food plant than our bread wheat does not yet appear but it is quite within the bounds of possibility.

In Denmark they are interested in sweeds and turnips and a scientist there, O. Winge, has crossed turnips (carnipia) has 18. The new plant has 28.

At Moscow, cabbages and radishes both go into the "beetch," but G. D. Karpchenko has a new plant with a chromosome number the sum of both of these. It may be a better soup plant than either.

A special word should be given to the work of Arne Munsting, of Landskrone, Sweden, who has tried experiments with plants of the mint family. He crossed two distinct species and got a third species which was already a common plant, but not previously known to be so closely related.

British Broadcasting Corporation

Accepts Invitation To Send Representative To Imperial Conference.

The British Broadcasting Corporation has announced that it has accepted the invitation of Raymond Morand, chairman of the Canadian Parliamentary Committee on Broadcasting, to send a representative to the forthcoming Imperial Economic Conference at Ottawa. The corporation's representative will be Major Gladstone Murray, chairman of the B.B.C.'s public relations committee, who is a Canadian.

"Your engine's missing," remarked the mechanic. "I know it," growled the motorist, "and I wish the whole dash car was, so I could collect on my theft insurance."

Captain: "The pudding you made is very hard. Where did you get the flour?"
Cook: "From the bag behind the door."
Captain: "I thought so! That is Portland cement!" — Soudagians-Bix, Stockholm.

W. N. U. 1936

Quebec Farmer Has Initiative

Built School In Isolated Bush Country For His Children

The problem of providing an education to a family of fourteen children living in the bush in complete isolation has been solved by a French-Canadian farmer, Theophile Bousy, who built and furnished his own private school and then appointed himself as school commissioner to choose a teacher. The Quebec Government, recognizing his initiative, granted him a small subsidy.

Many miles from Stomachon village, north of Quebec city on the road leading to Laurentides National Park, Bousy's little schoolhouse can be found. The seating capacity at its opening was six but since then desks have been ordered on the average of one every year.

Specimens Hard To Find

London Museum Wants Frocks Worn Between 1890 and 1920

The London Museum, which is engaged on a collection of women's clothes throughout the centuries, is experiencing the greatest difficulty in obtaining genuine specimens of frocks from the earth. They were only in the past by the agricultural and colonization committee of the Ontario Legislature and approved by the House.

The report presented to the main committee recommended:
1. Banning of settlers for acreage cleared and seeded.
2. Immediate survey of vacant farms in Ontario.
3. Publication of the results of the survey in Canada and Great Britain.

4. Eventual establishment of a distinct department of colonization under a deputy minister.
5. Establishment of "shacks" in farming districts where prospective settlers would live while preparing the land.

6. The doubling of Ontario's cultivated acreage by a concentrated battle to the land movement.

LIFE IS GLORIOUS AND GAY WHEN SISTER WEARS THIS DAZZLING DRESS

Who wouldn't be won over instantly by its charm and sophistication? It is just the last word in chic as its originator fashioned of brown tulle and lace with lace trim. It's a splendid dress for simpler "beur."

For a party wear, when this cute model can be delightfully carried out in tulle, she'll love it, if you choose the Lyonnais-style shade. Finish the round neck and sleeves with a trim of pleated chiffon that takes shape with the silk. The pleating can be bought already at any of the trimmings.

And it's so inexpensive to copy it. Style No. 879 is designed in sizes 8, 10, 12 and 14 years. Size 10 requires 2½ yards of 39-inch with 1½ wide lace.
Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Turn To Agriculture

Back To The Land Movement Live Issue In Ontario

The "back to the land movement" in Ontario would receive added impetus if a series of recommendations formulated by a sub-committee are adopted by the agricultural and colonization committee of the Ontario Legislature and approved by the House.

The report presented to the main committee recommended:
1. Banning of settlers for acreage cleared and seeded.
2. Immediate survey of vacant farms in Ontario.

3. Publication of the results of the survey in Canada and Great Britain.
4. Eventual establishment of a distinct department of colonization under a deputy minister.

5. Establishment of "shacks" in farming districts where prospective settlers would live while preparing the land.
6. The doubling of Ontario's cultivated acreage by a concentrated battle to the land movement.

Scottish Trade Ship

Will Sail To Canada With Display Goods On May 5

It is announced that arrangements have been completed for the "Lettitia," Scottish trade ship, to sail for Canada May 5. The ship will carry leading Scottish manufacturers and their goods.

The exhibition will be opened officially 12 hours after the "Lettitia" reaches port. Scotland is determined to grasp this opportunity to show Canadians what she can provide.

Britain's Public Roads

There are 17,236 miles of public roads in Great Britain, according to the Ministry of Transport. It would be necessary to drive 192 miles daily for three years in order to cover every mile of highway under Government supervision. (The last day of all you could take it easy, as you would only have to cover 28 miles.)

Southeastern Manitoba is more heavily infested with noxious weeds than any other section of the prairie provinces, according to a report presented to the national research council.

BRITAIN SAVES COTTAGES FROM DEMOLITION

The teeth were drawn by the Chicago Motor Club from the familiar masculine warning: "Look out There's a woman driving." The motor club announced it has found that it is from four to five times safer for all concerned when a woman is at the wheel.

"What has become of your Savings and Loan Society?"
"Disbanded—all the members wanted to borrow and none to save."

Can Be Proved

Says Churchill Port Will Be Great Factor In The Return Of Prosperity To Western Canada

Churchill, western Canada's new port on the Hudson Bay, was visualized as a northern industrial center, a great ocean port and as a factor in bringing the rest out of the hole it is now in, in addresses given by Gen. R. W. Patterson and Hon. D. G. McKenna before the On-to-the-Bay Association at Moose Jaw.

Gen. Patterson and Mr. McKenna spoke at a banquet held in the Grant Hotel.

"There is no force on earth that can prevent Churchill and the Bay route being a great success if you gentlemen do your part," Gen. Patterson stated. "Keep up the spirit of the organization and you will not regret the hard work of the past few years."

The port was characterized by the speaker as being one of the greatest factors in helping the country to come back. It was unfortunate that conditions at the present time were such that the wonderful, send-off of the port would be an encouragement to others to do likewise, and in this manner freight and insurance costs would be kept down.

There were no difficulties, Gen. Patterson said, and the more fog and darkness that could be lifted from the situation, the more rapidly would the route and the port develop. The facilities and all aids to navigation would be completed by the port by July.

Possibilities of tremendous development at Churchill and in the Churchill area were foreshadowed by Hon. D. G. McKenna, Winnipeg.

Mr. McKenna visualized the importance of the bay route and the port in the years to come and of the industries which may find a place in the economic life of the people who will live there.

His address pertained to the town site of Churchill and the opening of the port. "This of this would depend," he said, upon the Department of Railways and Canals at Ottawa who had control of affairs in connection with the port at the present time.

Opening his address, the speaker gave a description of the territory within 150 miles of the port. "This was very level and covered with muskeg but with proper drainage could be transferred into first class grazing land. At this point he visualized cattle being shipped to the territory and finished before being shipped to Great Britain and European ports.

Considerable work has already been done on the townsite in the matter of clearing the land of rocks and leveling of hills. The result had been that the town is set on a southern slope with perfect drainage. The task of protecting waterworks from frost was a rather difficult one and the matter of a winter water supply therefore was a problem. This however could be overcome, he said.

The town as a whole also presented a serious fire hazard for it was 500 miles from the nearest community and at certain times of the year strong winds from the bay were prevalent. This, however, could be overcome by the stipulation that all buildings be of fireproof construction and that houses be built of fire-resistant materials.

There was plenty of stone and rock in the vicinity for this purpose, Mr. McKenna stated.

At the present time and probably for a few years to come, the government was not in favour of a heavy influx of people into the area for if these were to be left stranded in winter time, the government would have to take care of them or take them out of the territory.

World's Wheat Varieties

1700 Samples Of Seed To Be Shared By Manitoba and Saskatchewan Universities

A complete set of seed samples of the 1,700 varieties of the world's wheats, collected by Professor John Macdonald, of Reading, England, author of the most authoritative book on wheat varieties, will be shared in the cereal departments of the University of Saskatchewan and Manitoba Agricultural College, Dr. J. P. Harrington announced.

The purpose of securing these seed samples is to have available all possible breeding material to breed new wheats answering the requirements of high yield, high quality, earliness, disease resistance and drought resistance.

In reply to the question whether work had been done to secure a wheat for the north country with the good qualities of Garnet and without its defects, Dr. Harrington said that Reward-Garnet crosses had been made at the university, but that the work was not sufficiently advanced to announce any results at the present time.

King George Attends

Quaint Annual Ceremony

Distribution Of Maundy Money Was Once Elaborate Ritual

When he attended the distribution at Westminster Abbey of the royal Maundy money the king witnessed a ceremony which no English sovereign has attended for a century or more. Distribution of the specially minted Maundy money is now all that is left of the one-time elaborate ritual. The recipients were poor people drawn from all over England, totalling 67 men and 67 women, corresponding to the king's age, and the money distributed amounted to about \$10 in value of provisions, and then 67 pence—or about \$1.10—which is the actual Maundy money, and is worth considerably more than its face value when, as it generally is, it is sold to collectors.

To each recipient of the Maundy money the king first handed a little red pouch containing 50 shillings in the place of the old-time provisions, and then handed to them a little white pouch containing the actual Maundy money. This was in special coins of denominations from one pence to four pence.

There was plenty of stone and rock in the vicinity for this purpose, Mr. McKenna stated. At the present time and probably for a few years to come, the government was not in favour of a heavy influx of people into the area for if these were to be left stranded in winter time, the government would have to take care of them or take them out of the territory.

World's Wheat Varieties

1700 Samples Of Seed To Be Shared By Manitoba and Saskatchewan Universities

A complete set of seed samples of the 1,700 varieties of the world's wheats, collected by Professor John Macdonald, of Reading, England, author of the most authoritative book on wheat varieties, will be shared in the cereal departments of the University of Saskatchewan and Manitoba Agricultural College, Dr. J. P. Harrington announced.

The purpose of securing these seed samples is to have available all possible breeding material to breed new wheats answering the requirements of high yield, high quality, earliness, disease resistance and drought resistance.

In reply to the question whether work had been done to secure a wheat for the north country with the good qualities of Garnet and without its defects, Dr. Harrington said that Reward-Garnet crosses had been made at the university, but that the work was not sufficiently advanced to announce any results at the present time.

King George Attends

Quaint Annual Ceremony

Distribution Of Maundy Money Was Once Elaborate Ritual

When he attended the distribution at Westminster Abbey of the royal Maundy money the king witnessed a ceremony which no English sovereign has attended for a century or more. Distribution of the specially minted Maundy money is now all that is left of the one-time elaborate ritual. The recipients were poor people drawn from all over England, totalling 67 men and 67 women, corresponding to the king's age, and the money distributed amounted to about \$10 in value of provisions, and then 67 pence—or about \$1.10—which is the actual Maundy money, and is worth considerably more than its face value when, as it generally is, it is sold to collectors.

To each recipient of the Maundy money the king first handed a little red pouch containing 50 shillings in the place of the old-time provisions, and then handed to them a little white pouch containing the actual Maundy money. This was in special coins of denominations from one pence to four pence.

Value Of Livestock

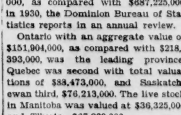

Statistics For Canada Show Value For 1931 Much Lower Than Previous Year

The value of farm live stock in Canada in 1931 aggregated \$483,300,000, as compared with \$687,225,000 in 1930, the Dominion Bureau of Statistics reports in an annual review. Ontario with an aggregate value of \$151,904,000, as compared with \$218,393,000, was the leading province. Quebec was second with total valuations of \$88,473,000, and Saskatchewan third, \$76,213,000. The live stock in Manitoba was valued at \$39,229,000 and Alberta, \$67,229,000.

The total value of all descriptions of farm poultry is estimated at \$2,135,000 last year against \$24,852,000 in 1930. Ontario also leads the list at \$1,551,000 compared with \$22,784,000 in the previous year.

What Would Your Mother Say If She Saw you in That Daring Costume?

It might be very cozy. It is hers! — Wahre Jakob, Berlin

879

LIFE IS GLORIOUS AND GAY WHEN SISTER WEARS THIS DAZZLING DRESS

Who wouldn't be won over instantly by its charm and sophistication? It is just the last word in chic as its originator fashioned of brown tulle and lace with lace trim. It's a splendid dress for simpler "beur."

For a party wear, when this cute model can be delightfully carried out in tulle, she'll love it, if you choose the Lyonnais-style shade. Finish the round neck and sleeves with a trim of pleated chiffon that takes shape with the silk. The pleating can be bought already at any of the trimmings.

And it's so inexpensive to copy it. Style No. 879 is designed in sizes 8, 10, 12 and 14 years. Size 10 requires 2½ yards of 39-inch with 1½ wide lace.
Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

This peaceful scene shows a pair of old thatched cottages on Slesmore Common, near Newbury, England, which the British Government hopes to save from demolition. They are more than four hundred years old and in good condition.

BRITAIN'S SURPLUS FOR FISCAL YEAR

LONDON, Eng.—The treasury announced that the budget for 1931-32 had been balanced with a surplus of \$364,000 (\$1,822,000 at par).

The surplus was achieved after providing \$32,500,000 (nominally \$162,500,000) for redemption of British debts and the withdrawal of \$12,750,000 (\$63,750,000 at par) from the dollar exchange account, instead of the \$22,000,000 contemplated last September.

The revenue for the year amounted to £770,590,000 and the expenditure was £770,590,000. The pound sterling is now worth nearly 45 p. at par, but has depreciated to \$3.70 since Great Britain suspended the gold standard. Drastic measures taken by the government last September to balance the budget as the first step towards a restoration of world confidence and prosperity were regarded as having been successful when the figures were published.

Most of the funds necessary to balance the budget were raised by new taxation, but some "bookkeeping" might be considered a draft of capital for current expenditure, was involved. The figures, for instance, revealed only £12,750,000 had been withdrawn from the dollar exchange account, which was established during the war to prevent a collapse of foreign exchange. Most payments in dollars in the United States, instead of the higher sum contemplated last fall.

Then, too, the taxpayer this year had to pay three quarters of his income tax for the calendar year before March 31, instead of the whole half paid before that date. As a consequence, one quarter of the 1932 income tax receipts, which ordinarily would have been devoted to the 1932-23 budget, has been used to balance the budget of the fiscal year which ended Thursday night, March 31.

The treasury disclosed that bills amounting to \$30,000,000 which matured March 29, in New York, had been paid and that a balance of \$90,000,000 (€3,950,000) of a credit extended by a group of French banks had been paid off.

The treasury in each case reserved the right to reborrow until 12 months after the credits of last August and September were granted.

A loan of 2,500,000,000 francs (\$150,000,000) from the French Republic has not been paid. Income taxes yielded the most money—£287,000,000—for the budget, and customs duties were next with \$200,000,000. The surplus yielded £76,000,000.

Although information treasury sources said there might be some reason for the taxpayer in the future, they indicated it probably would be less than some quarters had expected.

Technical Education

Aid Given To Five Provinces By Federal Government

Ottawa, Ont.—Technical education in five provinces was aided by government grants during the fiscal year 1930-1931 to the extent of \$301,387.

Information placed on the table of the House of Commons in reply to a question of Thomas Reid (Lib., New Westminster), revealed that the province of Prince Edward Island, Nova Scotia, New Brunswick, Manitoba and Saskatchewan had received federal assistance in technical training.

Sees the Bright Side

New York—Rather optimistic about the way the world is wagging, particularly that part of it which the British occupy, Sir Campbell Stuart, a director of "The Times," of London, England, arrived here from Canada to pass a few days in the United States before sailing homeward. A native of the Dominion of Cornwall in the last year of the Great War, was deputy director of British propaganda in enemy countries during the late Lord Northcliffe.

Big Shipment Of Oats

Calgary, Alberta—Calcuttally \$30,000 bushels of seed oats will have been shipped to Saskatchewan at the end of this week, according to G. M. Stewart, district inspector of the Dominion seed branch. This amount, all from the Peace River district of Alberta, will meet the Saskatchewan requirements, he states.

Does Not Admit Outrage

Vancouver, B.C.—Confronted with an ancient Greek coin the Canadian nickel was "inferentially" ugly, Arthur Langer, A.C.A., Toronto, said addressing the Women's Canadian Council.

W. N. U. 1930

Committed For Trial

Veregin, Who Faces Four Charges, Released On Bail

Yorlton, Sask.—Peter Veregin was committed for trial on three charges of perjury and released on bail, set at \$12,000, when he appeared in court here before Magistrate A. McDonald.

When the perjury charges were laid in court of King's Bench here in May he will have to answer four charges, three of perjury and one of conspiracy with witnesses.

The perjury charges are alleged to have been committed while Veregin was giving evidence at the preliminary hearing of George Chutkoff, who was charged by the Doukhobor leader with having committed perjury in the Yorkton Court House last November.

Plans Long Flight

Canadian Aviator May Attempt To Fly To Rome In May

Ottawa, Ont.—A solo aeroplane flight from Canada to Rome is planned by Capt. J. E. Boyd, Canadian flyer, according to word received here. Capt. Boyd, who made the eastward voyage with witnesses, is planning to attend the conference of transatlantic aviators opening in Rome on May 22.

The Canadian aviator is at present at Wilbur-by-the-Sea, Florida. If his present plans materialize he will fly direct from Daytona Beach, Fla., to Canada, touching at Toronto, Montreal and Charlottetown before hopping off at Harbor Grace, Nfld., on a flight to London and Rome.

Tells Of Plots

Anti-Soviet Conspiracies Out Of Russia Reveal

Moscow, Russia—Moscow newspapers gave prominent place to a despatch from Paris to the Tass news agency, quoting the Communist newspaper "Thunant" as saying far-fetched activities by Russian "white guards" were underway throughout Europe, including plots against the life of Joseph Stalin and other anti-Soviet conspiracies outside the Russian border.

Among the latter, the despatches said, was a proposal to assassinate Maxim Gorki, Russian author, in Italy, and Maxim Litvinov, Soviet foreign commissar, in Germany.

NO LOSS FROM ALBERTA POOL GUARANTEES

Edmonton, Alberta—All danger of loss to the province over its wheat pool guarantees totalling \$5,336,707 will be reduced to three or four years, providing operations of the pool continue as successful as during the present crop season, said Premier J. E. Brownie in the Alberta legislature.

Referring to operations on the open market this year, the premier said Alberta wheat pool marketing has now passed the \$5,000,000 bushel mark and the record handlings in history of the Alberta Co-Operative was 37,000,000 bushels.

After some criticism had been expressed by D. M. Duggan, Conservative leader, and W. E. Howden, Liberal, Edmonton, to which the premier replied, the bills validating agreements between Alberta and the bank and the wheat pool concerning the guarantees were given second reading. The bills ratify settlements authorized at the last session.

All amendments to raise the exemptions under the proposed provisions of the wheat pool marketing act, and the exemptions will stand at \$700 for single persons and \$1,500 for married persons.

NEW GOVERNOR OF BENGAL LEAVES LONDON TO EMBARK FOR INDIA

The photograph above was taken when Sir John Anderson (centre), left London en route to India where he will take over the office of Governor of Bengal. On the extreme left of the picture is Lord Trenchard, Head of the Metropolitan Police Force, while next to him is Sir Samuel Hoare, Secretary of State for India. Second from the right is Sir Herbert Samuel, Home Secretary.

Ocean Fares Slashed

Reduction Is Announced In Trans-Atlantic Accommodation

London, England.—Trans-Atlantic passenger rates have been slashed 15 per cent, or more by a group of Great Britain's largest marine companies, the White Star and Cunard Line, while most of the shipping firms of Europe, Canada and the United States were conferring on rate cut projects in Brussels.

The White Star was the first to announce a slash. All classes of accommodation on its liners will be affected by the cut which in general eliminates the 15 per cent surcharge imposed when Great Britain suspended the gold standard.

Within a few hours officials of the Cunard, Anchor and Anchor-Donaldson lines announced fares would be reduced between Europe and Canada. First class, cabin class and tourist class minimum rates will be slashed 20 per cent and third class ocean rates reduced 10 per cent, by all three lines.

The White Star announcement said that the new rates will be in force before the summer tourist season opens will not be put into effect this year.

Opposes Prison Term Cuts

B.C. Attorney-General Says Desperados Should Serve Full Term

Victoria, B.C.—Strong condemnation of the practice of federal authorities releasing from penitentiary convicted desperados before the expiration of their terms, with reference to the province in which prisoners were committed to prison, was voiced by R. H. Pooley, Attorney-General, in the British Columbia legislature.

Referring to recent crimes of William Bagley, bank robber, gunman and fugitive from justice, Mr. Pooley said that of five men convicted and released after serving part of their sentences, the Communist newspaper in Nanaimo several years ago, one had been hanged, two others were now in police jails in the United States and Bagley was now a fugitive from justice after the Harrison Hot Springs hotel robbery last year, and the Okanagan jail break in January.

Widen Beauharnois Inquiry

Scope Of Investigation May Be Governed By Necessity

Ottawa, Ont.—If the commission reports it necessary to a complete inquiry as to any senators affected, or in justice to any public man whose honor is implicated in the course of the investigation, the scope of the investigation committee on Beauharnois will be widened. This was the reply given by Senator Arthur Meighen, government leader in the Upper House, to a question asked by Senator Hardy.

The necessity for broadening the committee's powers in order to hear G. Howard Ferguson, Canadian High Commissioner, was suggested by Senator Hardy.

Cattle Breeders' Association

Calgary, Alta.—James Turfitt of Carroll, Man., was elected president of the Canadian Aberdeen-Angus Breeders' Association in annual convention here. He succeeded W. F. Warren of Bellevue, Sask. J. A. Brown, of Forrest, Ont., was chosen vice president. Directors elected included John Brown and T. A. Edwards, both of Watford, Ont.; H. Leader, Burnside, Man.; W. B. Lynn, Dendron, Sask.; E. Henderson, La Crosse, Alta., and R. R. Buchanan, Fincher Creek, Alta.

Claims Small Islands

Manila—Claim to 16 small islands in the Sea of Sulu near British North Borneo was filed with the British and United States governments. It was revealed by the Princess Dayang, sister of the Sultan of Sulu.

INTRODUCES BILL

Sir William Davison, minister of the Interior, introduced a bill in the House of Commons to legalize lotteries. His effort last year to get lotteries approved for hospitals failed.

Critiques Pension System

Sir Arthur Currie Says Matter Still In Unsatisfactory State

Winnipeg, Man.—It is a matter of great concern to all of us that, 14 years after the termination of the war, the matter of pensions is still in an unsatisfactory state, writes Sir Arthur Currie, commander of the Canadian corps during the war, in his message to the annual convention of the Manitoba campaign, Canadian Legion of the British Empire Service League, which opened here Wednesday, March 30.

"The principal adjustment necessary lies in the relationship between the appeal board and the pensions tribunals," Sir Arthur writes. By this time there ought to be general agreement on the interpretation of the law, and a method must be found whereby the correct interpretation of the law can be made by all bodies whose responsibility it is to make decisions. The present weakness is something which only the government of this country can remove. If the suggestion made by the veterans' organization is not workable, then the government must find something that is."

New C.N.R. Director

William J. Christie Of Winnipeg Receives Appointment

Ottawa, Ont.—R. J. Manion, Minister of Railways and Canals, has announced the appointment of William J. Christie, of Winnipeg, as a director of the Canadian National Railways. Mr. Christie is one of the most prominent business men in Winnipeg. He is head of W. J. Christie, and a director of many other companies.

Mr. Christie goes on the board of the Canadian National Railways in place of E. R. Richards, who was recently elevated to the bench.

Large Order For Tea

Russia Arranges Year's Credit Rush With India Planters

Columbo—Soviet Russia has placed an order with India tea planters for 5,000,000 pounds of Indian and Ceylon tea. The transaction is said to be on a year's credit basis, at 9 per cent interest, Russia having the privilege of taking the tea as and when it wishes at the prevailing market price. Russia is the greatest consumer of tea in the world, but produces only a fraction of her needs.

U.S. Postage Raised

Washington, D.C.—The first class postage rate has been increased from two cents for a period of two years by the United States House of Representatives. The increase is expected to yield \$135,000,000.

Regiment Publishes

War History

Official History Of 44th Battalion In World Story Of "Six Thousand Canadian Men"

Winnipeg, Man.—On April 9th (Vimy Night) when the members of the Forty-Fourth Battalion Association met here for their annual reunion in Winnipeg, the official history of the unit will be distributed.

The writing of an official history of the experiences of a Canadian battalion in the Great War is a vast project. For more than three years committees have labored devotedly in the collection of facts, photos and finances to produce a history worthy of the 44th Battalion's war record. The completed work is now available for 44th men, their next of kin, and the general public.

Entitled "Six Thousand Canadian Men" and dedicated to the twelve hundred comrades "who went up the line with us, and did not come back," the 44th history is a book of some 400 pages. It outlines the experience of these men who, tackling a new job, mastered the hard lessons of the grim work and built up a unit rated by no less an authority than Baron Byng as "one of the best in the Canadian Corps."

Checking the historical accuracy of the factual matter, Col. Duquoy of the Records Office, Ottawa, pronounced the work "a good history, vivid and interesting throughout."

Air Service For Alberta

Express Plane Will Operate Between Calgary and Edmonton

Regina, Sask.—Commencing May 1, a passenger and express service will be operated between Calgary and Edmonton by the Canadian Airways Company, western division.

Announcements to this effect was made Monday by Captain Roy Brown, superintendent of the western section. No such service has been planned for the rest of the prairie where the government air mail service ceased March 31.

Two Fokker F-14 planes, capable of carrying eight passengers each, will be operated with Pilots Jarvis and Ashton in charge.

The Calgary-Edmonton service is being undertaken in order to provide transportation to the Great Bear district in northern Alberta.

MANITOBA WILL OFFER A NEW BOND ISSUE SOON

Winnipeg, Man.—As soon as the bill now being rushed through the Manitoba legislature is passed, the province of Manitoba will offer a \$5,000,000 bond issue. It is expected the issue will be sold in Canada and will be payable in Canadian funds.

The legislature suspended the rules to give first reading to the bill when it was introduced.

Premier John Bracken, Wednesday, March 30, vigorous objection was voiced by the Labor members of the House to the proposed loan, and this group blocked second reading of the bill by refusing the necessary unanimous consent to a further suspension of the rules.

The money to be raised will be used to pay off debts created for such public services as unemployment relief, trans-Canada highway and the new tuberculosis sanatorium, Premier Bracken stated. Maturities to be paid are \$1,000,000 due in New York April 15; \$1,627,000 due in New York July 1; \$320,000 due in Winnipeg July 1; and \$1,000,000 in ten annual bills issued to meet advances by the banks to the provincial savings office.

During the summer the government will have to meet the bond debt of the Farm Loans Association amounting to \$500,000, Mr. Bracken said. Apart from this there would be no other obligation of consequence until December when an issue of \$5,000,000 will be due. He said if the province can get immediate maturities cleared up in a few weeks the way will be paved for taking care of the December issue.

John Green, Labor leader, and William Ivimey, another laborer, contended another bond issue was only adding to the financial difficulty the province was in, and that the government should make a "courageous attempt to change the monetary system."

The choice lay between the province defaulting or paying its debts, said the Premier. Labor members were not dealing with realities. The House had no intention of changing the monetary system and the government had no intention of defaulting.

OTTAWA PLANS TO LIMIT ALL COMMITMENTS

Ottawa, Ont.—Under the stress of present economic conditions, the government is making every effort that men can put forward, in order to avoid the creation of obligations that are not absolutely essential to carrying into effect the provisions of the Unemployment Insurance Relief Act.

This assurance was given to the House of Commons by the Prime Minister when the House was in session on the bill which is designed to extend the operation of last year's act from March 1 to May 1.

Nothing was so much congenial to the government, declared Mr. Bennett, as this whole financial outlook of the country.

Even the richest country of the world—the United States—was faced with a deficit of \$2,500,000,000. In view of the fact that the United States financial obligations now resting on the government, every effort was being made to avoid the creation of commitments that absolutely had to be carried into effect of the terms of the present measure.

"Of course, the extent of the extent of our ability, we propose to limit commitments to a minimum, consistent with the obligations already resting on us," said Mr. Bennett.

Mr. Bennett was replying to J. L. Hallett (Lib., Yarmouth-Shelburne), who had asked the government to "unlimited powers" the bill vested in the cabinet.

The opposition seemed to forget, declared the Prime Minister, that an extraordinary condition existed throughout the country. Now and then the "radio" in a moment of mental aberration explained the situation, but the party frowned on it.

Pioneer Sheepman Dies

E. Harter Came To Alberta Thirty-Three Years Ago

Lethbridge, Alta.—Ephraim Harter, 78, one of Western Canada's earliest sheepmen, died at his home in Cardston, March 29. He arrived in Cardston in 1899 from his native Connecticut.

He was associated in sheep ranching with his brother, Levi Harter of Magrath, one of the organizers of the Canadian Co-Operative Wool Growers' Association.

No Australian Butter

Ottawa, Ontario—Word received by Robert Weir, Minister of Agriculture, from Australia, gave the assurance that no butter from that country would be shipped to Canada at present. A report had been in circulation that a large consignment of butter from the United States was to be shipped to Canada and this had caused considerable anxiety among the dairy interests.

South African Earthquake

Johannesburg, Union of South Africa.—One of the most severe earthquakes ever recorded here set the house of Western Union in the Centre of the city today and caused a heavy rock slip in the shaft of the Robinson mine. The earthquake was put out of action. There were no casualties here.

Wins Grand Championship

Calgary, Alberta.—Netherhall, Primrose, Clydesdale mare from the Prince of Wales' ranch near High River, won the grand championship of her class at the Calgary spring horse show Thursday, March 31. The prize was a champion in Lucy Print, owned by R. A. Allan, of Dalroy.

No Redistribution

Edmonton, Alberta.—Province of Alberta has no intention of following Saskatchewan's lead in the matter of cutting down the number of seats in the legislature. Some weeks ago a motion was introduced in the House proposing reduction in the number of seats from 43 to not more than 41. The motion was defeated.

Plane Crashes In Desert

Bagdad, Iraq.—Three passengers in a French airplane flying from Damascus to Bagdad were reported to have been killed when the plane crashed in the desert. "One of them was said to be Colonel de Reynier, of Switzerland, head of the mission of Bagdad. The French Consul was appointed to adjust the Iraq-Syria frontier."

Plans Return Flight

London, Eng.—J. A. Mollison, who flew to Cape Town, South Africa, in record time, is understood to be planning a record-breaking return flight.

Electric Cooking and Its Advantages

Economical - Clean - Fast - Convenient - Healthy

AN ELECTRIC RANGE IS ECONOMICAL BECAUSE

Food, of course, costs more than fuel. It is a well known fact that shrinkage on foods in preparation runs from ten to twenty percent. This percentage, however, is greatly reduced when the food is cooked on an ELECTRIC RANGE, which means that your food budget is lessened for the simple reason that you buy less food. Furthermore, an ELECTRIC RANGE, properly operated, works for you at the surprisingly low cost of about one cent per meal per person.

AN ELECTRIC RANGE IS CLEAN BECAUSE

There is no soot or smoke to smudge your kitchen, pots and pans and other cooking utensils. No tedious soot-cleaning. Your draperies retain their original beauty longer, when you cook with ELECTRICITY, clean as sunlight. The ELECTRIC RANGE is easy to clean and equally as easy to keep clean.

AN ELECTRIC RANGE IS FAST BECAUSE

High speed surface elements give quick cooking heat, and the well insulated oven soon reaches baking temperature. Practically all the heat is conserved for cooking, very little being wasted. The ELECTRIC RANGE itself does not radiate heat.

AN ELECTRIC RANGE IS CONVENIENT BECAUSE

The antiquated pastime of "pot-watching" is totally eliminated forever. This tiresome task is efficiently and accurately handled by the Automatic Timer and Oven Heat Control without your supervision. You slip the food in the oven, set the controls, and forget it, knowing that the meal will be perfectly cooked on time, every time, at dinner time. Modern recipes call for the application of specified temperatures for certain time intervals. The ELECTRIC RANGE does this for you to the degree and minute, which means that you experience a new freedom in cooking with positive assurance of better results. The ELECTRIC RANGE can be conveniently placed in your kitchen to save unnecessary steps, and will keep your kitchen cool because of its insulated oven, centering the heat inside, where it belongs.

AN ELECTRIC RANGE IS HEALTHY BECAUSE

The full flavor of foods cooked ELECTRICALLY is retained in the food, which also applies to the vitamins, mineral salts and juices, so essential to a properly balanced meal, as the cooking is done with very little water, thereby conserving these health-giving elements, which are lost when ordinary methods are used.

Our prices on Electric Ranges, including installation in your home, are the lowest ever offered in Alberta. We invite you to consult our Local Manager for these prices and full details of our Convenient Time Payment Plan.
